

WILLIE WHITLA HOME AT LAST

Five Thousand People Cheer And Sing As The
Missing Child Is Carried By Father
To Waiting Mother.

KIDNAPERS RECEIVE THE MONEY

Boy Was Well Treated, But Is Overjoyed At Being Home
Again--Suspect Has Been Released--Detectives
Begin Search.

Sharon, Pa., March 23.—Five thousand persons greeted Willie Whitla upon his arrival here with his father at noon. They followed the boy and his father to the Whitla home, cheering and singing.

Affecting Meeting.
The meeting between the mother and the child was most affecting. Almost prostrated by the anxiety of the past few days, Mrs. Whitla was nearly overcome when she had her boy in her arms again.

World Famous.
No kidnapping case in recent years has attracted so much attention from all parts of the country as has the present one. Despite the work of the best detectives possible to obtain the child was not found until the reward was paid near Cleveland last night.

Wealthy Family.
His father is a wealthy lawyer and also a successful business man. They paid the ten thousand dollars demanded for the return of their child without a murmur and have thus far given no clue for detectives to work upon which might lead to the capture of the kidnapers.

Child Returned.
The child was returned to the father at a Cleveland hotel last evening after he had given a woman who conducts a candy store on the outskirts the money and had gone to the hotel to await the coming of the child as demanded.

Forced to Delay.
Mr. Whitla and his son could not return home before this noon but the mother was apprised by telephone that the child had been recovered and her anxiety was allayed until their arrival in triumph this noon.

Was Released.
Cleveland, O., March 23.—James P. Whitla and his son, "Willie," left this morning for his home at Sharon, Pa. They were escorted from the hotel to the station by cheering crowds.

Youngstown, O., March 23.—Joseph Weiss, the theatrical promoter, suspected of being implicated in the Whitla case, was released today, as he proved an alibi.

WILL NOT AFFECT STATE GENERALLY

New Tariff Measure Not Considered Dangerous by Madison Manufacturers.
(SPECIAL TO THE GAZETTE.)

Madison, Wis., March 23.—That the changes in the new tariff bill now before congress will not effect the interests of Janesville is the opinion of many of the manufacturers here. Even the portion of the bill which provides for a national inheritance tax is not viewed with alarm by many of the legislators.

One of the provisions of the new national tariff bill is that duties on shoes shall be reduced to per cent and there is a heavy reduction on manufacturer leather. One of the officials of the Badger State shoe factory of this city declared yesterday he did not believe that the change in tariff would have any effect upon the Wisconsin industry. He declared that but few manufactured shoes were imported at the present time.

At the offices of the Yawkey-Crowley Lumber company it was learned that the old lumber rate for imported lumber was \$2 per thousand. The new bill provides for a \$1 duty, and yet one of the managers did not believe that Canadian lumber would in any way compete with the lumbering industry of Wisconsin.

Undoubtedly the steel interests of the Lake Superior shore will be affected by the provision of the new tariff law. Under the proposed law duties on manufacturers of iron and steel, including steel rails, and tin plates are reduced on a graduated scale amounting to 50 per cent.

Drug store owners do not believe that there will be any great advance in the price of women's necessities, such as perfumery, toilet articles, fancy soaps, feathers, furs dressed on the skin and manufacturers of hair, which will be subjected to a heavy duty as the result of the new tariff net.

The direct inheritance tax bill provides a fee of per cent on from \$10,000 to \$100,000; 2 per cent on from \$100,000 to \$500,000, and 3 per cent over \$500,000. Attorney General Gilchrist said that the passage of the national law will not interfere with the enforcement of the law in Wisconsin. If the national law is enacted it will lay an additional burden upon estates but as many of the states have not inheritance laws the act was deemed advisable. It is said that a resolution will be introduced in the legislature this week protesting against the passage of a national inheritance tax.

LAYMEN MEETING IN DES MOINES
J. Campbell White and Col. Elijah C. Halford are Among the Prominent Speakers Present.

Des Moines, Ia., March 23.—The meeting of the Laymen's Missionary Movement, for which preparations have been making for several months, opened auspiciously today and will continue until Friday. Bishop Morrissey of Davenport, J. Campbell White of New York, Colonel Elijah C. Halford and a number of other religious workers of note are among the scheduled speakers.

PACKY M'FARLAND AND LEACH CROSS

Chicago Lightweight and New York East Side Fighter Meet in 10 Round Bout Tonight.
(SPECIAL TO THE GAZETTE.)

New York, March 23.—The popular Pairment A. C. has arranged an attractive card for his weekly boxing show tonight. The main event will bring together Packy McFarland, the Chicago lightweight, and Leach Cross, the East Side fighter. In a ten-round bout. It will be the second time these two have met in the ring. On the first occasion the Chicagoan had all the better of the New York boy. Since that time, however, Cross has undoubtedly made rapid progress in the fighting game and as he is in the best of condition his friends expect him to at least break even with McFarland.

GOING TO AFRICA TO BE MARRIED
Miss Charlotte Clancy, Enroute for the Sudan, Is Passenger on Same Ship With Ex-President.
(SPECIAL TO THE GAZETTE.)

New York, March 23.—On the same steamship that is carrying the Roosevelt party is another passenger bound for Africa, but on a different mission than with which beckons the ex-president to the Dark Continent. Miss Charlotte Clancy, who comes from Iowa, is on her way to the Sudan, where she has already spent three years in missionary work. At Alexandria she will be met by Dr. Thomas Lambie, to whom she will be married in that city, and together they will proceed up the Nile to their destination. Miss Clancy is a native of Iowa and a graduate of Mount Union College.

Mrs. Allen left nothing to any of her relatives, stating that they were well provided with money. Among the contestants is Mrs. Lillian Nordica, the famous singer, who was a niece of Mrs. Allen.

TOWN IS DEFENDANT IN A SUIT BROUGHT

By Three Corporations to Recover Taxes Paid to City—City Used Money for Improvements.
(SPECIAL TO THE GAZETTE.)

Wausau, Wis., March 23.—Judge C. A. Fowler of Portage will sit in circuit court in this city March 29 to hear motions in three cases against the town of Eagle River. The plaintiffs are A. H. Stanga company of Merrill, the Brooks & Ross Lumber company of Schofield, and the Monmouth Wood-ware company of Monmouth.

The actions were brought to set aside taxes on the grounds that they are illegal. Judge Reid is prevented from sitting in these cases because of having given counsel as attorney on some of the questions involved, some time before his appointment as judge.

Eagle River some time ago procured a franchise from the state to build a dam for the development of a water power for the operation of a municipal lighting and water plant. The expense of the improvement amounted to about \$100,000. A special tax on the property in that town is being raised money for paying off the indebtedness. The plaintiffs have extensive properties of which amount to a large proportion of all the taxes. They sue to set aside the taxes on the ground that it is illegal, their contention being that a town is not vested with power to go into such a large enterprise.

HAMBRECHT BILL IS SURE TO PASS

SEGREGATION AT UNIVERSITY WILL NOT THEN BE POSSIBLE.
(SPECIAL TO THE GAZETTE.)

Madison, Wis., March 23.—Since the Hambrecht bill prohibiting segregation passed the assembly and it now seems to have a safe passage ahead of it in the senate, the extent to which the college of engineering is being invaded by women, the college of agriculture is being overrun by women, "farmers-ess," the college of medicine has three intrepid female students; and only the college of law seems to have escaped the wearers of the muskum but and the Psychical Unit. Parlia has not found favor in the minds of the coeds.

The "sensation" is being felt everywhere. The engineers now wear collars and tobacco now is chewed in the classrooms. In this regard, however, they are taking too much trouble, for one independent woman said:

"I never notice whether they are wearing collars and they can chew tobacco all they please, for I never know whether it is 'black jack' gum or not, anyway. I'm sure I go merely to hear the lectures."

The girls who are taking the regular course in medicine are Miss Lucy Hall, '09, Watertown; Miss Meta Franke, '09, Milwaukee; Miss Dora Slone, '09, Shawano; and Miss Virginia Whitawa, '09, of Janesville is taking engineering physics, one of the most difficult courses in the college. She expects to teach mathematics. Miss Jennie Hagan, '09, of Milwaukee is one of the brightest members of the class in mechanical drawing, and the height of her ambition is to be an architect. She then could take different courses in agriculture, principally in the department of horticulture. None seem to have arrived at the subjects of advanced livestock-raising and poultry.

"For course there are disadvantages in taking work in such unevenly divided classes," said one of the prospective "doctors," "but we girls who take medicine are so enthusiastic about our work that we feel that anything slighty annoying or embarrassing is unavoidable."

The most noticeable thing about these enterprising young women is their extreme "femininity." Not one of them is big, masculine, or loud voiced. On the contrary, they are extremely modest, demure young women, whom one would more naturally expect to discover reading a copy of Elizabeth Barrett Browning's poems or embroiling a conference in Wall-to-wall paper for the dining-room table, than treading the regions of man's ruler learning.

If all the appropriation bills pending before the Wisconsin legislature were to pass, there would be a deficit in the general fund at the end of the next biennial period, to be raised by state tax, of \$3,646,390.35. This is the effect of a statement by Senator George H. Hubball, chairman of the senate claims committee, and by L. C. Whitte, of Edgerton, chairman of the assembly claims committee, who were placed upon the heels of the members for peculiar this morning.

The document is a financial resume of the state for the past ten years, together with an analysis of the present revenues of the state and possible necessary expenditures during the next biennial period.

The following table graphically illustrates the situation as presented by the three committees' chairman: 1909 BIENNIAL PERIOD 1900-1910. Total proposed appropriations.....\$10,805,838.35

Existing appropriations for same purposes..... 5,397,320.00

Deficit in general fund, amount to be raised by state tax, if total appropriations asked are made..... 3,646,390.35

The pamphlet prepared by the chairman estimates that at the end of the present year the estimated balance in the state treasury will be \$20,028. Without any additional appropriations, the pamphlet shows that the total estimated funds available for 1910 will be \$3,182,318, and that the total estimated disbursements will be \$5,297,500, leaving an estimated balance of nearly \$2,000,000. The small amount of appropriation asked for is \$1,919, to reimburse P. M. Johnson for appropriation for his services in the amount of \$22.58.

HAS SHACKLETON REACHED POLE IN HIS LAST TRIAL?
(BY ASSOCIATED PRESS.)

London, March 23.—Information has reached London, according to the Pall-Mall Gazette, that the antarctic expedition under Lieutenant Ernest H. Shackleton of the British navy, which left England in July, 1907, has reached the South Pole.

A cablegram was received this afternoon from Shackleton that has not yet been made public, but it is declared by high authority the explorer failed in success. The expedition was obliged to return within a hundred miles of the pole.

AU REVOIRS TO EX-PRESIDENT

THROUGH SEES ROOSEVELT PARTY OFF AT HOBOKEN.
(SPECIAL TO THE GAZETTE.)

New York, March 23.—Ex-President Roosevelt is now en route to Africa. The steamship Hamburg, upon which the Roosevelt party is traveling, left her dock in Hoboken shortly after noon today. She is now well out to sea on her first day's journey.

There was a gala crowd at the North German Lloyd docks in honor of the ex-President's leave-taking. The Hoboken waterfront is generally for picturesqueness, but today in honor of the occasion it was decorated and the dwellers of the neighborhood took a few hours away from their work to witness the departure of the country's foremost private citizen.

Thousands gathered at the pier and gave Mr. Roosevelt and his son Kermit an enthusiastic au revoir. As the puffing and snorting tugs drew the ship away from her dock and pointed her nose down the river toward the bay the band aboard began to play "The Star Spangled Banner." As the first notes reached the people a hearty cheer went up. Mrs. Roosevelt accompanied her husband and son to the steamship for the final leave-taking and who shared in the ovation of the crowd.

There were a number of intimate friends at the dock to say a parting word to Mr. Roosevelt before he boarded ship. Despite the expression of wish of the ex-President many persons insisted upon sending flowers with their good wishes and when he entered his cabin he found it a veritable conservatory of sweet-smelling blossoms. President Taft sent a telegram wishing Mr. Roosevelt "bon voyage," which was received by the latter before he went aboard the ship.

All the shipping in the North River flew American flags as the Hamburg departed from her dock, and the picture presented as the big liner slowly started down the river was impressive. A salute was fired as the ship passed through the Narrows, and cheering whistles from tugs, ships and factories along shore joined in a hearty though discordant farewell to the Roosevelt party. As the boat from the shore the ex-President and his son were standing with some of the ship's officers on the upper deck, holding tight to their caps to keep them from being carried away by the stiff breeze that came up the bay.

The machinery of the Hamburg when she sailed was in perfect condition and her engines were fired with the choicest coal. The confident expectation is that the boat will reach Naples in record time. Aboard the vessel are several hundred first cabin and many second cabin passengers. The Roosevelt party occupy five staterooms, with a lounge room and bath.

At Naples the members of the members of the Roosevelt expedition will transfer to the steamer Admiral of the German East African line, which is to sail April 5 for Mombasa harbor, Mombasa Island. They will arrive at the East African port toward the end of April, proceed by the Uganda railway to Nairobi, spend six months there, then continue by rail to Port Florence, Lake Victoria Nyanza, making a total distance of 641 miles by rail.

The expedition will cross Uganda by caravan, and finally push down the whole length of the Nile, reaching Khartoum about one year from this date. Much of the hunting and specimen collecting will be done in British East Africa, where the Uganda railway will be used as a means of ready transportation from Nairobi, which will be the base of supplies.

At Khartoum it is expected, the ex-President and his son will be joined by Mrs. Roosevelt and Miss Ethel Roosevelt, who will accompany them on their trip to Europe. The three naturalists of the party—Major Edgar A. Neame, J. Alden Larine and Edmund Heller—will proceed direct to the United States from Egypt. Mr. Roosevelt intends to remain in Continental Europe and in Great Britain for a full year, having accepted invitations to deliver lectures at leading universities in Germany, France and England.

The German and British authorities in East Africa already have offered to place every facility at their disposal for the convenience and safety of Mr. Roosevelt and his party.

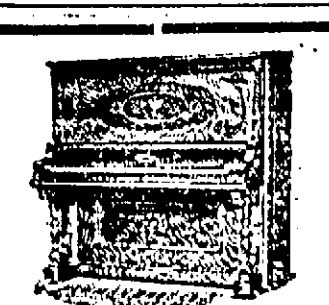

There is no member of the party who is an excellent shot and assurances have been given that not the least fear need be entertained for the safety of the expedition. Trusted guides and native carriers already have been engaged.

Kermit Roosevelt, the ex-President's second son, whose age is 19 years, goes along as the official photographer of the expedition. His collection of photographs of animals and scenes will be made use of in a scientific way and as illustrations for books and articles which his father will write.

MINERS MEET TO
DECIDE ON COURSE

400 Delegates Meet at Scranton to Pass on Refusal of Their Demands by Coal Operators

[SPECIAL TO THE GAZETTE.]

Scranton, Pa., March 22.—Four hundred delegates and more than twice that number of visitors, including prominent officers and members of the United Mine Workers in other States, were on hand here today at the opening of the convention which is to decide what course the miners shall take in view of the refusal of the coal operators to grant their demands. The convention represents the whole of the anthracite district.

The mine is filled with rumors regarding the probable action of the convention, but in reality the course will be taken is a problem which at any time since it became known that the wage agreement was not likely to be renewed without a struggle. What the outcome will be no one can with any certainty predict.

There is undoubtedly a strong peace party among the officers and leaders of the organization. Few of the leaders appear to believe that a strike at the present time would stand any chance of success and they are using their utmost endeavors to induce the convention to come to terms with the operators and delay the threatened fight at least until a more opportune time. But whether the peace party is strong enough to overcome the radical element which is loudly calling for a strike is not at all certain.

ASSEMBLY WILL NOT
RAISE THE SALARY

Bill to Increase Pay of Judges of Milwaukee Probate Courts Was Killed by Lower House.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., March 22.—The assembly today refused to raise the salary of the two Milwaukee probate judges from \$5,000 to \$6,000 a year. The assembly also killed a bill to reduce from 15 to 10 per cent the rate of interest on tax titles. It was argued that this was not an interest, but a penalty, and had not operated to decrease the delinquent tax power. Governor Davidson will veto all the dam and water power bills as those subjects are to be considered at the special legislative session this year.

[SPECIAL TO THE GAZETTE.]

Manitowoc, Wis., March 22.—Wireless on boats of the Goodrich Transit Co. on Lake Michigan is a possibility this season as result of a visit here yesterday of J. D. Fountain, representing the United Wireless Telegraph Co., New York. Mr. Fountain was in conference with Sup't. D. M. Cochrane of the Goodrich line and stated that negotiations had also been opened with the Graham & Morton line for the wireless system. While here a site was selected for erection of the receiving station. In event the Goodrich Co. accepts the service, No definite action has been taken, however.

Must Pay Alimony

John Rehner must pay \$20 per month alimony to his divorced wife to support the woman and seven children or go to jail. This was the decision of Judge Kirsch in circuit court. When the case was adjourned until May 1 to give Rehner the opportunity to find work and pay up and if he fails to do this, he will be committed. The Rehners were married at Sheboygan in 1888 and separated in 1901 and the wife was given \$20 per month with the divorce decree. Rehner declared he would refuse to pay unless given the custody of his children which was denied him when the decree was granted.

Mrs. Philip Kihlwe has returned to her home at Brodhead after a visit to her daughter here.

Miss Mary Dunwiddie is home from Beloit college.

E. B. Luchinsinger has returned from New Mexico, where he spent the winter.

State Fire Marshal T. N. Purcell was in the city investigating a recent fire.

Assemblyman A. B. Comstock of Albany was in the city yesterday.

OLD RESIDENT DIED
EARLY THIS MORNING

Mrs. Randall Williams Passed Away at Her Home at Half-Past Six—Had Lived 86 Years.

At half-past six this morning, an old resident of Rock county, Mrs. Randall Williams, died at her home on Cherry street after a week's illness. On last Saturday she was taken ill with an attack of the grippe, from which it was feared on account of her rather delicate constitution she might not recover.

Laura A. Mason Randall was born Aug. 1, 1852, in Cheshire, Mass. In December, 1873, she with her first husband, S. H. Dudley, came west settling in Rock county in the town of La Prairie. They lived here until Mr. Dudley's death, which occurred in the year 1887. After her husband's demise, Mrs. Dudley moved to Janesville, in 1889 uniting in marriage to Randall Williams. She leaves in mourning her two children by her first marriage and two from the latter. They are: Lorenzo S. and Nelson M. Dudley, and Jessie H. and Louis A. Williams, all of this city. A sister, Mrs. Sherman Phelps, also survives her.

Mrs. Williams was one of the noblest Christian women in the community. In a quiet unassuming way she was, as long as she was able, one of the ablest workers in the Methodist church. Outside of the church she was ever ready to lend a helping hand. For fifteen or twenty years past she has been confined more or less to her home and has suffered during that time great pain. In all her trials and in her last illness, in which she suffered excruciating pain, only her sweet lovable nature has been shown and only she knew of the suffering that was borne.

The services will be private and will be held Thursday afternoon at two o'clock from the late home on Cherry street. Rev. Andrew Porter of Milton Junction will conduct the services. The interment will be in Oak Hill cemetery. Friends are requested to omit flowers.

BELOIT GAMBLING ROOM
RAIDED BY POLICE TODAY

Called at Place at an Early Hour and Secured but One Person, Who Paid \$25 Fine.

[SPECIAL TO THE GAZETTE.]

Beloit, Wis., March 22.—A gambling room was invaded this morning by the police at an early hour, but only one of the party was secured. He pleaded guilty in court this morning to the charge of conducting a gambling room and paid a fine of \$25 and costs. The information was brought to the police by one who had lost heavily and wanted revenge.

MILTON JUNCTION.

Milton Jet., March 22.—Mr. and Mrs. A. C. Thorpe of Janesville spent Sunday with Mr. and Mrs. D. B. Thorpe.

Mr. and Mrs. J. F. Williams of Janesville were over Sunday visitors with her father, L. A. Richardson.

New York.—"Young" Erno has posted a forfeit of \$200 for a return match with Freddy Walsh. Erno has parted from his manager, "Billy" McCann, because of the disagreement which they had while in New Orleans.

Erno declares that he should not have received worse than a draw with Walsh in their battle at New Orleans, and many newspaper accounts of the bout agree with this statement. One reason Erno is eager to again box Walsh is that the latter agreed to weigh in for the set-to, and then rubbed trouble over the question. Erno said: "I don't think that Walsh weighed in. If he did so I didn't see it done and I had to take the word of others for it. I am confident I can defeat Walsh. I am willing to let the money go as part of a \$1,000 side bet for a fight with him for anywhere from 20 rounds to a finish. I will meet him in the lightweight limit, 133 pounds. He can weigh in any time from 6 p. m. on the day of the fight until ringside."

"From this time on I propose to be my own manager. Mr. McCann and I have parted."

Wherein Many Oppositions Fall.

An opposition has got to be in earnest in championing honest government. It has got to look genuine as well as be it, and it has got to believe in itself, before it can induce the country to vote against ministerial candidates who come to them bringing leaves, fishes, postoffices and wharves.

Rent Baths for Sunday.

"I have heard a good many stories illustrating theft," remarked a New Yorker, "but the janitor of some new steam heated flats told me one that beat them all. On Sundays the tenants have a great many visitors, and the janitor discovered that these visitors paid the tenants two cents each for the privilege of taking a hot bath; five cents if they did not bring their own towels."

Of Interest To
Every Woman
In Janesville

We have prepared a NEW FLOOR OIL of remarkable quality—a recipe that we have worked out from practical experience in every day work.

Any lady can have a bright, lasting polish on her hardwood floor if she will but sprinkle a few drops on her broom each morning when sweeping. It lays the dust and at the same time it gives the floor a polish that water will not touch.

One Pint FREE To
Every Lady

We have a whole barrel on tap and will give a pint FREE to every lady who will bring a bottle and ask for a sample of

Excelsior Floor Oil

This will be sufficient for an ordinary kitchen floor and will give you an opportunity to try it free of cost, just before house-cleaning time, too; so be sure to call.

COUNTY ORDERS IN CROP EXPERIMENTS

Farmers Join With University Agricultural Experiment Station to Grow Seeds.

Madison, March 23.—The whole state of Wisconsin will soon be organized into county orders of the Wisconsin Agricultural Experiment Association, co-operating with the experiment station at the university in growing various grains and forage crops. Five counties have already organized such orders—Fond du Lac, Dodge, Manitowish, Vernon, and St. Croix. Two more counties, Waushara and Sheboygan are soon to hold meetings for the purpose of similar organization.

Prof. H. A. Moore of the agronomy department of the university, who established the general association for agricultural experiment nine years ago is rapidly developing the work through these county centers for the purpose of closer supervision of experiments in growing seed grains and forage crops in co-operation with the experiment station. It is intended that these county orders shall be "clearing houses" for all matters connected with the experiments now undertaken by the 1,400 former students of the agricultural college who are members of the general association.

Fond du Lac, Dodge, and Manitowish counties were the first to form their own branch orders. Vernon county recently organized the following officers for the new order there: President, Nola Sprud, Coon Valley; vice president, C. E. Nelson, Westby; secretary, treasurer, John Cade, Vernon. On March 13, St. Croix county elected the following officers at an enthusiastic meeting, where 750 farmers joined: President, R. W. Brunner, Hudson; vice-president, A. Peterson, Amory; secretary, William Schwandt, Stanton; treasurer, W. L. Bennett, New Richmond.

Prevention of Disease.

It is proposed to extend the work of the hygienic laboratory at the University of Wisconsin in adding physical and health officers in the diagnosis and prevention of disease. With the increased income provided by the bill now pending in the legislature, the university intends to make a survey of the hygienic conditions in Wisconsin, such as water supply, in order to eliminate as far as possible typhoid fever and other diseases resulting from water contamination. The making and testing of antitoxins and sera is another important extension of the work of the laboratory that will be provided. The state board of health is authorized by law to furnish antitoxin serum to the indigent of the state, and it is desired to have the hygienic laboratory test and certify to the purity of serum so distributed. Vaccines and other biological substances are to be tested in the same way.

Potato Yield.

The horticultural department of the University of Wisconsin Agricultural Experiment Station is working on the selection of improved strains of potatoes. The potato industry of the state already exceeds \$4,000,000 in value annually and is capable of great expansion, but the average yield is small, only about 90 bushels per acre. By the use of better seed, this yield could easily be increased to 150 bushels per acre.

The Agricultural Experiment Station of the University of Wisconsin has extended its aid in drainage plans to almost 200 land owners and 17 drainage districts in the state, besides making, in each case, soil examinations and, in some 400 cases, recommending special assistance. Such excellent results have been obtained from the soil survey that a state soil survey is immediately pending. Bills are now under consideration in the legislature providing for the establishment of such a survey.

SIGNS BEING PLACED ON THE COLORADO ROADS BY THE DENVER MOTOR CLUB.

Denver, Col.—Colorado in general and Denver in particular are just at present entirely at the mercy of the automobile bug. "Automobilism" has attracted many of Colorado's prominent citizens.

Denver is plunging actively in the scramble for the hidden tour next July. Already a course has been laid out from Denver to Chicago, and automobiles have been despatched over the course to ascertain its availability for the famous July contest. Mr. Guggenheim is actively interested in the proposed meet this summer.

Several of the Denver professionals and enthusiastic amateurs are to enter the New York-Seattle races.

In addition to all these activities Denver automobile enthusiasts are preparing for local contests this summer in road races, tours and mountain climbing competitions. They are banding every energy toward improving the roads in the vicinity, and one of the most practical innovations which is expected will be adopted universally, is the placing of signs along the highways to guide and protect the man behind the wheel on his trip.

Dangerous places are marked, distances to different places are shown, approaches are indicated, railroad crossings, the altitude approaching bridges, and in fact everything that might be construed to help or protect the driver. The eight signs shown above are only a part of the many placed along the roads in the vicinity around Denver.

Gives Strength to Character.
Poverty is uncomfortable, as I can testify; but nine times out of ten the best thing that can happen to a young man is to be tossed overboard and compelled to sink or swim for himself.

—James A. Garfield.

And He, Too.

"Well, it begins to look like spring," observed Mr. Millington to Mr. Jones, as they found themselves side by side in the street car.

"Yes, it certainly does."

"It must be about time to go fishing?"

"Yes."

"And you will indulge in the sport?"

"I will."

"And you will tell of the big bites you had?"

"Certainly."

"And of the big fish that got away?"

"I surely will."

"And you won't hesitate to buy a big fish of someone else and pass him off as yours?"

"Not for a second."

"In fact, Mr. Jones, you, a respectable member of the community and a husband and father, and a man who should set a moral example to others, will not hesitate to lie about the fish you do or you don't catch?"

"I will not, Mr. Millington. I will lie like blue blazes to come out ahead of the other fellows."

Mr. Millington turned away with a long-drawn sigh, and for the next five minutes not another word was spoken. Then Mr. Jones turned to him and queried:

"And what about you?"

"Why—why, I believe I'll go fishing and lie, too," was the reply.

—JOE KERR.

Her Plan.

"I saw," said the country girl at the city department store, "that here on this sign it says this elevator is for 'ladies, gentlemen and flowers,' but may I go up in it, too, if you please?"

IN THE SENATE

Diapatches from Washington indicate that every member of the senate except Senator La Follette apparently is well satisfied with the standing committee for the sixty-first congress which were announced on Monday. The other republican insurgents got what they wanted, and no longer are protesting against the leadership of the older senators.

Mr. La Follette did not get what he wanted because he aimed too high. He wanted a place on the committee on finance or the committee on interstate commerce.

Senator Cummings was assigned to the latter, and Senators McCumber, Lodge, Smoot, Flint, and Cullom got the vacancies on finance.

Mr. La Follette is assigned to membership on seven committees and is made chairman of the committee on census. He retains his membership on Indian affairs, pensions, immigration and civil service and retrenchment, and in addition is made a member of the committee on corporations organized in the District of Columbia and the committee on expenditures in the department of state.

The committee to investigate the condition of the Potomac river front, of which Mr. La Follette was chairman for four years, is abolished.

Senator Stephenson retains the chairmanship of the committee on expenditures in the postoffice department. He had an opportunity to become chairman of the committee on enrolled bills, but preferred to retain his old chairmanship and get a place on the committee on public buildings and grounds. This is a desirable assignment as this committee makes up the bill to authorize the purchase of sites and the construction of new buildings throughout the United States.

Mr. Stephenson gets another desirable place in his assignment to the committee on industrial exhibitions. This place was sought by many senators, because it will have supervisory jurisdiction of the Alaska-Yukon exposition which is to be held at Seattle this year.

Mr. Stephenson retains his membership on the committee on claims, Pacific railroads and enrolled bills. He is assigned also to the committee on Indian depredations.

THE TARIFF

Congressman Payne yesterday took the floor in behalf of his tariff bill. In commenting on the measure one of the exchanges has the following to say relative to its construction and requirements:

"Allowing that the new tariff bill passes into law substantially unchanged, it raises some very interesting points. Crude consideration of the mere reductions proposed is apt to give a distorted idea of the intentions of the framers of the act. It is necessary to remember the application of the maximum and minimum clause. Hides, for instance, which are placed on the free list, may even be taxed more than the present 15% if they come from a country which imposes a similar duty.

"A valuable differential is established in favor of free trade countries. So important is the concession that it is likely to have a marked influence on the protection situation in Great Britain. It is in fact, a direct bid to the British importer, who will compete in every case where duties have been reduced at a great advantage with Germany. This especially applies to manufactured steel.

"It seems to have been the intention of the ways and means committee to let in raw materials cheaply as far as could possibly be done. There is very little question that this was the result of pressure from the manufacturing interests, who have not hesitated to make concessions in return. If hides come in duty free, there is a reduction of 40% on shoes and other manufactured leather. This is probably a matter of small moment to the manufacturer, who must have built-up faith in his shoe machinery and knows well enough that the American shoe is superior to anything made elsewhere.

"It will be noticed also that the reductions in produce are very generally smaller than those on most other commodities. The concession is only small in meat, although in bacon it is more liberal. Butley is the only grain which sees a material reduction, and generally it may be said the intent pressure of the agricultural interests is apparent throughout. They gain all around as the farmer is still highly protected, while the commodities which he buys will be cheaper.

"One of the most reasonable reductions is that in lumber. We stultify ourselves when we agitate for the conservation of our forests, while at the same time we impose a duty which amounts to a liberal premium on their destruction. This schedule is another instance of the disposition to free raw material, and the same may be said of bituminous coal, which also comes in free from countries which impose no tax upon our own product.

"Upon the whole the bill will give very general satisfaction. It has some serious flaws, but nothing of the kind could be devised which would please everybody. It will please a great many people, and it is reasonably sure that a tariff revision which gives such wide satisfaction is not a bear argument on securities, will be well calculated to stimulate industry even at slightly lower wages. The effect upon wages has probably been much exaggerated. In our present economic position wage reductions were inevitable, whether the tariff was changed or not.

"As it stands, the new tariff is entirely workable, and moreover may be enacted in such a form as to free us from the necessity of making changes for some years to come."

PRIMARY RESULTS

As the result of today's primaries the republicans will nominate a city ticket and the democrats will likewise have one in the field. Thus far the Gazette has refrained from taking part in the pre-primary campaign owing to the number of candidates. However the result will be known tomorrow morning and from that time on the republican city ticket will receive the support of the paper. The republicans will nominate men, whoever are chosen, that are well fitted for the offices and should be elected.

There are many questions of importance to be decided within the next two years and strong businessmen are needed at the head of civic affairs—men with business experience and men who will do credit to the city as a whole. The republicans will name these.

The penalty for kidnapping should be made sufficiently severe that it will not be attempted again in a hurry. A life sentence for such a crime is not too much.

A Tennessee jury has decided that murder is a crime in that state after all. There was some doubt in the minds of many that they would consider a crime down there.

TARIFF BILL IS SCORED

Democrats in Report, Attack the Payne Measure.

CALL IT CRUDE, INDEFINITE

Declare the Law Would Increase the Cost of Living, Does Not Relieve the Farmer, and Helps the Oil Trust.

Washington, Mar. 23.—The Democratic members of the ways and means committee of the house in a minority report on the Payne tariff measure declare, if enacted into law, the bill will increase the cost of living. The report says the bill is crude, prohibitive, sectional and indefinite and an open challenge to a trade war with every other nation on earth.

The report is a severe arraignment of the revision which the Payne bill proposes. The countervailing duty provisions for coffee and petroleum, the maximum and minimum features, the Cuban reciprocity clause, the woolen, glass, agricultural and sugar schedules are bitterly attacked.

Payne Rates Prohibitive.
"There are many changes—for the most part minor changes," says the report, "of the Dingley rates, some up and some down. Most of the changes in a downward direction are reductions, more apparent than real, the Payne rates being as prohibitive in their results in many cases as the Dingley rates. In some of the schedules containing the most exorbitant rates, there are no changes giving any appreciable relief to the great body of consumers."

Declaring that a tariff is a tax paid by the consumer and that the only function of a tariff law is to raise revenue to supply the needs of the government the minority members of the committee insist that instead of an increase of taxes or a new issue of bonds, the correct remedy for the growing deficiency in the revenues is the cutting down of the expenses of running the government.

Increases Cost of Living.
"The bill is in many respects crude, indefinite, sectional and prohibitive. It seems to us from our examination, which was necessarily hasty, that on the whole it increases the cost of living. For example, it will increase the price of history about 30 per cent, and certainly nobody will claim that history is a luxury in this day and generation. In numerous instances the protection exceeds the entire labor cost of production."

"The treatment of the farmer, by this bill is along the same lines as have characterized Republican methods in the past," says the report. "It gets practically no relief and the laborer and producer have greater burdens imposed upon them."

"The Standard Oil Company is as handsomely cared for in the Payne bill as in the Dingley bill," the report continues, "and by reason of the provision in paragraph 637, popularly known as the 'joker' continues to be protected by a tariff of 80 per cent, which enables it to dominate and exploit the American market and to levy tribute upon the public, thereby piling up millions of dollars of 'ill-gotten gains.'"

The bill held full sway in the house of representatives yesterday. Mr. Payne of New York, chairman of the committee on ways and means, made an exhaustive speech in explanation of the bill.

ELECTROCUTION FOR WOMAN.

Gov. Hughes Refuses to Commute Murderess' Death Sentence.

Albany, N. Y., Mar. 23.—Gov. Hughes has denied the application for executive clemency in the case of Mrs. Mary Farmer, who is under sentence of death at Auburn prison for the murder of Mrs. Sarah Brennan at Brownville, near Watertown. Mrs. Farmer will be executed some time next week.

Mrs. Farmer will be the second woman to go to the electric chair in this state. The other was Mrs. Martha Place, who was put to death in Sing Sing prison on March 20, 1899, when Mr. Roosevelt was governor.

Mrs. Farmer was indicted jointly with her husband, James D. Farmer, for the Brennan murder. They were tried separately, but both were convicted.

CENSUS TO COST \$14,000,000.

Director North Asks Congress for a Large Appropriation.

Washington, Mar. 23.—If congress desires the decennial census taken next year, Director North of the census bureau wants about \$14,000,000 to defray expenses. He has made the request to the house.

On account of the failure of congress to pass a census bill at the last session none of the appropriation bills carried the money to do the work. Furthermore, there is no item in the census bill that passed the house the other day, appropriating a cent. It is probable that the senate will be asked to amend the census bill so as to include the appropriation.

Soldiers Guard at Murder Trial.

Amite, La., Mar. 23.—With the courthouse surrounded by state troops, the trial of Avery Mount, charged with the murder of Buzz Broeland, his wife and step-daughter, Mrs. Joe Everett, near Tickfaw, this parish, on the night of January 29, has been started.

DEMOCRATS ADOPT RULE FOR BOLTERS

Members of Party Must Abide by Majority or Be Declared Irregular.

Washington, Mar. 23.—Hereafter all Democrats who bolt the program of the party caucus will be stripped of their Democratic livery and compelled to masquerade in "mugwump" attire. This was the sense of a rule adopted by the Democratic house caucus last night. A vote of two-thirds is necessary to make the rule binding. The necessity for the new rules became apparent to the Democratic leaders as a result of a "bolt" from Minority Leader Clark during the fight on the house rules on the opening day of the special session.

Representative Fitzgerald was present and addressed the caucus. His remarks were listened to attentively, and no hostile demonstration was made. Several other "bolters" also attended the caucus.

The new rule was reported by the committee of 15 named by Minority Leader Champ Clark.

The committee of 15 recommended that hereafter a two-thirds vote of all the Democratic members of the house should be binding upon every Democratic member, unless he notified the caucus in writing that he would not be bound, or unless the subject dealt with was a constitutional question or the member was already pledged to his constituency to vote otherwise. The rules were adopted by a rising vote.

The statement contained a criticism of Speaker Cannon for appointing to committees Democrats who were not in accord with their party. The fact was brought out that after a long fight the committee had decided not to criticize specially any of the Democrats who voted on the opening day of the special session for the Fitzgerald amendments to the rules and in opposition to Minority Leader Clark.

Instead a general criticism was indulged in and the offenders left to their respective constituencies for approval or disapproval.

MINERS IN CONVENTION.

Question of Anthracite Workers Strike to Be Settled.

Scranton, Pa., Mar. 23.—The tri-district convention of the anthracite miners was called to order here today and at once took up the matter of a new agreement with the operators. The prospects for a successful outcome of their deliberations was not bright, and many delegates predict that a strike will be called. The miners are not in a conciliatory frame of mind because of the attitude of the operators toward their demands, and it was considered probable that they would instruct their committee to again present to the operators the very same demands that were recently rejected, and that, unless they are granted, a walk-out will be ordered.

"There will be no compromise over the question of recognizing the union," said Thomas L. Lewis, international president of the United Mine Workers of America, who arrived yesterday to attend the convention.

"I have taken my stand on that proposition," he added, "and I will not move from the position I have taken. I have never signed an agreement that has not carried with it recognition of the organization, and I won't begin now."

TAFT NAMES A CHICAGOAN.

Lloyd Bowers is to Succeed Solicitor General Hoyt.

Washington, Mar. 23.—President Taft has announced the appointment of Lloyd Bowers of Chicago to be solicitor general of the United States, filling the vacancy caused by the resignation of Henry Hoyt, who has held this post in the department of justice for several years. Mr. Bowers is general counsel of the Chicago & Northwestern railroad.

While no announcement has been made on the subject it is generally understood among Mr. Hoyt's friends that he is to receive a federal judgeship as a reward for his work in preparing and prosecuting a number of important cases during his term of office.

As solicitor general Mr. Bowers will work immediately under the direction of Attorney General Wickersham.

START ON TROLLEY JOURNEY.

Traction Men Leave Louisville for Trip to Cleveland.

Louisville, Ky., Mar. 23.—A large party of interurban electric railway officials started from here today for what promises to be a record-breaking trip over trolley lines. They are on their way to the convention of the Central Electric Railways association at Cleveland, and go in a special car through Indiana to Fort Wayne, and then to Lima, Toledo and Cleveland. The return will be made by way of Mansfield, Columbus and Indianapolis.

Six Balloonists Still Missing.

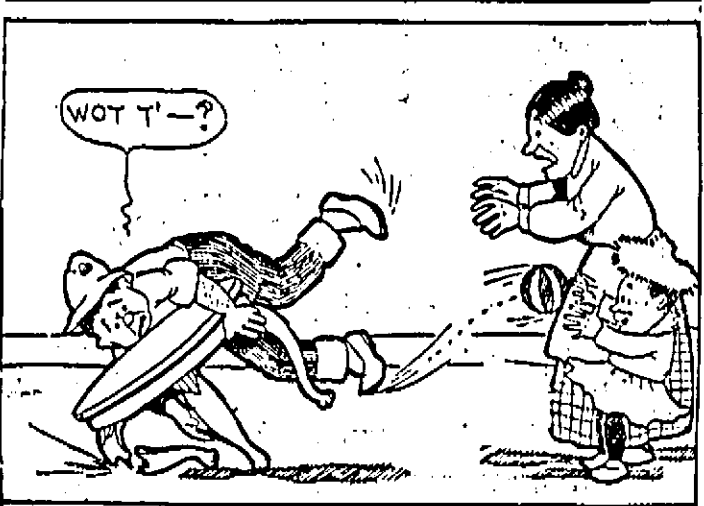

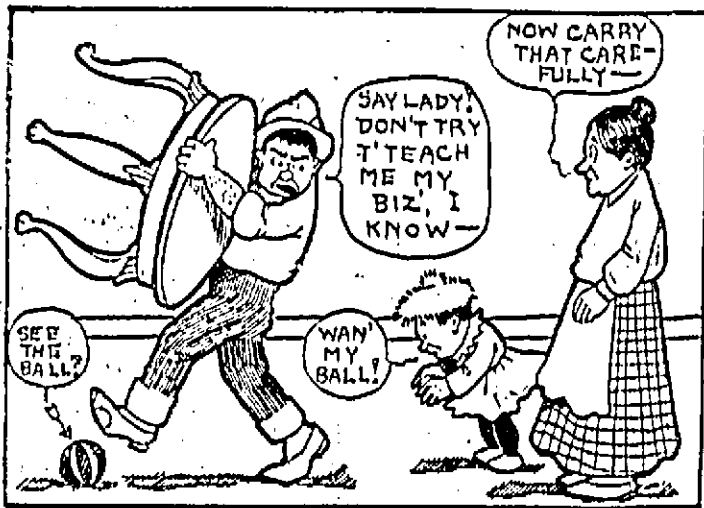

Pasadena, Cal., Mar. 23.—Possess have searched in vain for the six men who ascended in the big balloon America from this city last Saturday and have not been heard from since. The belief that a tragic fate has befallen the men has caused the formation of many relief expeditions into the Sierra Madre mountains.

28,000 Barrels of Whisky Burn.

Danville, Ky., Mar. 23.—Fire starting in the main warehouse of the Sonrey's distillery at Mellray, north of here, destroyed 28,000 barrels of whisky, valued at \$300,000.

HEIRS FIGHT FOR \$5,000,000.

Stephen Salisbury's Bequest to Worcester Art Museum is Attacked.

Boston, Mar. 23.—Attacking the constitutionality of the law whereby the Worcester Art museum would be permitted to receive an amount estimated at about \$5,000,000 from the estate of the late Stephen Salisbury of Worcester, Benjamin W. Hubbard of Virginia has brought suit in the United States circuit court to prevent payment of this amount.

By the will of Mr. Salisbury, who died in November, 1905, the art museum was made residuary legatee after the payment of various bequests. The residue of the estate is estimated to be about \$5,000,000 and the museum under its charter would be able to accept only \$1,500,000 without the special permission granted it by the law which Mr. Hubbard attacks. Mr. Hubbard is a nephew of the testator. Should he be successful in his suit, the residue of the estate would be divided among the heirs at law.

Acute Pains

Heart to Heart Talks.

By EDWIN A. NYE.

(Copyright, 1909, by American Truss Association.)

CHILD BEATING.

Do not whip your child.
To do so argues that you have not sufficient intelligence to govern it without the employment of brute force, in it not so?

The child is a sentient being. It can think and understand and decide. Such an intelligence ought not to require the scourge. Even a dumb brute is better off without it.

The child is a sensitive being. Its feelings are keen. They have not grown calloused, and it is especially subject to fear and harshness. To beat it for its mistakes or forgetfulness is the refinement of cruelty.

You whip it "for its own good?" Are you sure about that? It may be forced into obedience to your command and cringes when you threaten it. But back of that appearance of meekness may be a swelling sense of injustice or of hatred. You may be drying up all the finer feelings of its nature.

It is a dangerous thing to thrust a ruthless hand into the delicate heart-strings of your son or daughter.
There may be no immediate sign of resentfulness or treachery or outbreak, but the impression is there and will tell in the formation of character.

Above all things—
Do not whip in anger!
Be sure the blow that falls on the delicate body of your child is not given to relieve your own angry, animal feelings. The little one will be quick to see that you strike because of your impatience and loss of self control and not because you are seeking its good. You may do infinite harm.

Do not forget—it is your child.
If it is impulsive or forgetful or even vicious at times, whose fault is it? You gave it your characteristics. Your blood runs in its veins, and that blood carries to its brain the seeds of the weakness your inheritance gave.

Moreover, do not make your child a coward.

The child that is beaten may lose all semblance of courage and go through life broken spirited and without all initiative. There could be no greater handicap.

You say you want to "break its spirit?"

Do you really mean that? Think of a parent trying to break the immortal spirit of his offspring! There is danger you may make of the child a mere thing that will go crouching and cringing through the world without individuality of thought or action.

Think twice, before you raise your hand to smite a child.

Bad Habits.

"Where is John, my dear?" "He said he was going out to get a little ozone in his system." "I tell you, Jane, if you don't look out, he'll have himself all broke down with them drugs."

BORT, BAILEY & CO. SPECIAL EASTER SALE

A showing of fashion's latest demands in Suits and Coats that is worth seeing

Ladies' and Misses' Tailored Suits

The long 54 inch Covert, Mannish Cloths and Silk Coats; 32 to 40 inch long Jackets, lined and unlined.

FRIDAY, MARCH 26th.

On this day we shall have with us Mr. Grimes, the representative of F. Siegel & Bros., a firm noted for the style and excellent workmanship of their suits and coats. Mr. Grimes writes us that he will bring with him a complete showing of their exclusive styles, including only the very latest models, colors and materials, each an extraordinary value at the price.

These together with our own immense line—more than 150 of the latest creations in Suits, a fine assortment of Coats and Jackets, will be the most comprehensive showing of fine tailored Suits and Coats ever offered in Janesville.

Special value in Suits at \$12.50, \$15.00, \$20.00, \$25.00, \$30.00, \$35.00.

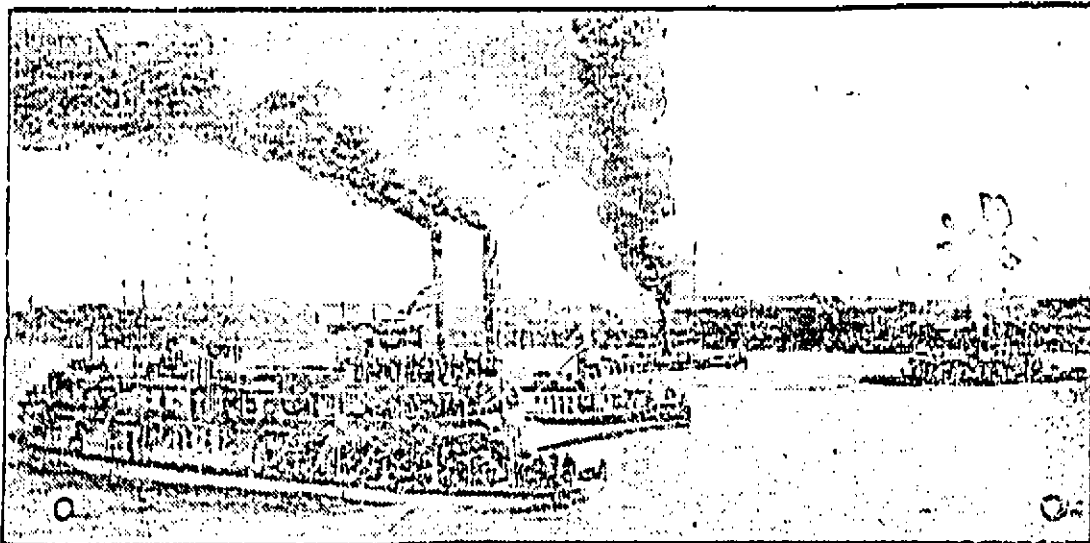

Special value in 50 to 54 in Coats at \$12.00, \$15.00, \$18.00, \$20.00, \$25.00.

Special value in 32, 36 and 40 inch Jackets at \$5.00, \$7.50, \$10, \$12.50, \$15.

In offering the ladies of Janesville and vicinity this great line of Suits and Coats our idea is to show a much larger line of exclusive and fine models than they could see in any other way. Selling many as we do, without the carrying risk, we can afford to sell them on a very close margin, and we will guarantee a positive saving of \$1.00 to \$10.00, according to price of garment, on every one purchased at this sale.

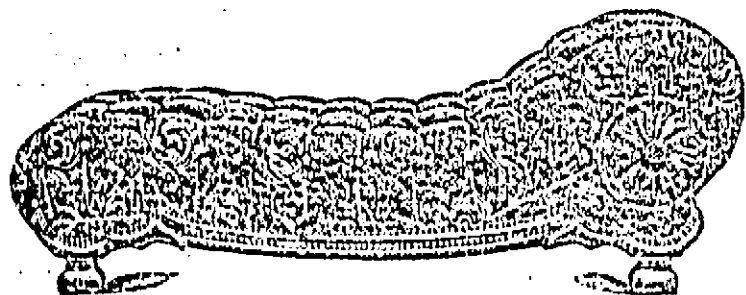

You will be welcome to attend this sale whether you wish to purchase or not.

And The Annual March Clearance Sale of Furniture Continues, and Will for Eight Days More

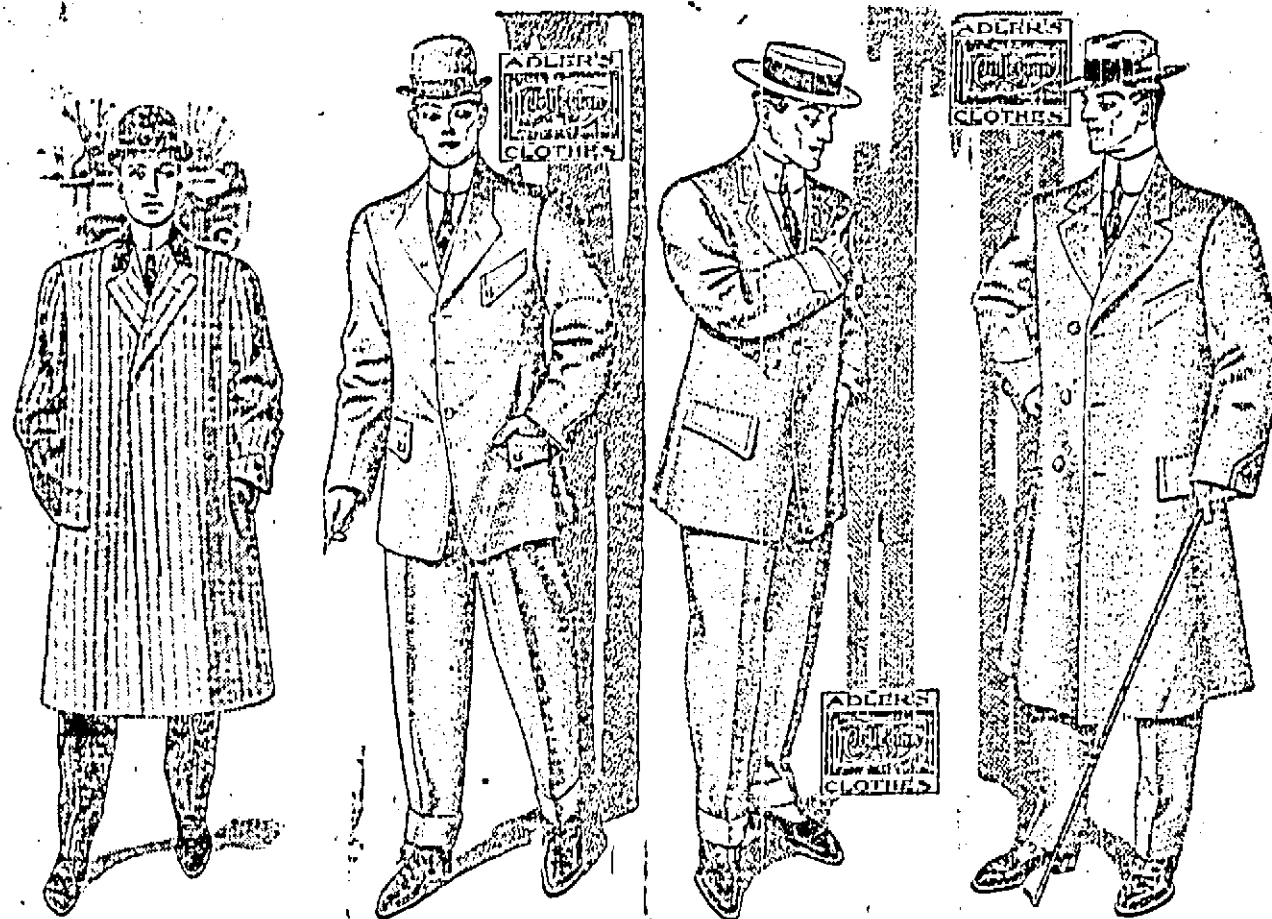

Get busy, for \$10.00 in cash means \$15.00 to \$20.00 worth of goods during this entire month. Such a saving should be given serious thought, and the money laid aside for furniture this year, spent where you got the greatest value. We make our March Sales a great money saver, and if you will call, we will prove it by our bargains. We are now overstocked on Couches and that means more than we have room for. We have cut the prices on them like on all other goods, and offer any four covered couch in stock at \$12.00 each.

That has been our March sale price for years, and each year becomes a greater bargain, as the cost to manufacture couches is continually on the increase. These couches are all steel constructed, well made and well finished, and guaranteed to give entire satisfaction. The covers are of the best velours, in many patterns and shades. See them, buy them, and save money. Watch our ads. and see the goods.

\$1.00 Box of My Safe Fat Reducer Free

I Want to Prove to You Before Your Own Eyes and At My Expense That I Can Reduce You to Normal Weight Safely Without Starvation Diet or Tiresome Exercises.

It Doesn't Matter What You Have Tried, Send For This Free \$1.00 Box of My Safe Fat Reducer Today.

POSITIVE PROOF IN PICTURED.
The Above Photographs Taken From Life, Showing the Remarkable Reduction of Flesh by Means of Kellogg's Safe Fat Reducer.

Free, positively free, a \$1.00 box of Kellogg's Safe Fat Reducer, to every sufferer from fat, just to prove that it actually reduces you to normal, does it safely, and builds up your health at the same time. I want to send you without a cent of expense on your part this \$1.00 package of what I am free to call a really wonderful fat reducer.

My treatment is prepared scientifically. It does not stop or hinder digestion; on the contrary, it promotes proper digestion and assimilation of food, which 99 fat people in a hundred haven't got, and that's why they are fat.

I will tell you why you are fat if I will send for this free package of my treatment. I can tell you a good many things about your fat which you probably never knew about and ought to know.

When I tell you here what my treatment can do I speak from hard-earned experience, not from my own, but from the experience of others who have tried almost everything from starvation to violent exercise and drugs and have failed until they tried and used my treatment.

Lost 30 Pounds in 30 Days.

Mr. H. J. Richardson, of Bolekow, Mo., writes:

"I have already taken two months' treatment. I never fail to recommend your treatment to any fat person I see, for it surely does the work. I got a month's treatment, and I lost thirty pounds in thirty days."

How Much Flesh Should You Lose?

What the Well-Formed Man or Woman Should Weigh.

The following is the correct height and weight of a well-formed man. A woman's weight will be generally about 8 pounds less than the following figures:

Stature.	Weight
5 ft. 0 in.	121 lbs.
5 ft. 1 in.	124 lbs.
5 ft. 2 in.	129 lbs.
5 ft. 3 in.	135 lbs.
5 ft. 4 in.	139 lbs.
5 ft. 5 in.	145 lbs.
5 ft. 6 in.	149 lbs.
5 ft. 7 in.	156 lbs.
5 ft. 8 in.	161 lbs.
5 ft. 9 in.	166 lbs.
5 ft. 10 in.	171 lbs.
5 ft. 11 in.	176 lbs.
6 ft. 0 in.	182 lbs.

A lady's weight should be two-fifths of her height.

"Ohio's Fat Boy" in 70 Days Loses 189 Pounds

"Prof. F. J. Kellogg, My Dear Sir: Your Safe Fat Reducer is all and more than you ever claimed for it. My weight today, after ten weeks' treatment, is 285 pounds, a loss of 189 pounds, as I weighed 474 pounds when I began with the Safe Fat Reducer. I never felt so well before, not even in 1890, when I was in hard training as a professional bicyclist and riding partner of Baby Blues. The reduction has been natural and gradual, and has at no time interfered with my regular daily duties or caused me the slightest inconvenience in any way. The action of my heart is strong and regular, and I have got rid of that 'smothered up' feeling which bothers all excessively fat people. My breathing is easy and I feel strong and active, and lighter on my feet than I have been for years."

"Please send me another supply of your Safe Fat Reducer, as I am about out."

"Very truly yours, J. H. Beeble, Jr., 607 Cedar Street, Canton, Ohio."

10 1/2 Pounds Gone!

The remarkable case of Miss Ardie Adams of Shelby, Ohio, is illustrated in her own words:

"When I look back to the time before I took your wonderful obesity cure I do not see how I stood it. My weight is now 162 1/2 pounds, and I have lost just 10 1/2 pounds. I can hardly believe that there has been such a difference in my feelings and appearance. But oh, how thankful I am that I found a cure for my awful burden of fat, in Kellogg's Safe Fat Reducer. I can hardly realize that I weigh now only 162 1/2 pounds. You can use my letter as a testimonial if you wish."

Cures Prominent Nurse Of Terrible Fat.

Clara Elizabeth Doolittle, nurse for over fifteen years in America's best hospitals, including New York City and homeopathic hospitals of New York, writes the Kellogg Safe Fat Reducer:

"When I commenced treatment with Safe Fat Reducer I weighed 200 pounds, my chest measure was 42 inches, waist measure 32 inches and hips 48 inches."

"For four months I have been losing in weight constantly and naturally and with no ill effects, and am feeling much better."

"Today I weigh 148 pounds. My chest measure is 37 inches, waist measure 27 inches, and hips 40 inches. I cannot speak too highly of Mr. Kellogg and the great work he is doing for fat-burdened humanity." Clara Elizabeth Doolittle, Box 64, Tekonsha, Mich.

Leaves No Wrinkles.

You should have no fear, after being reduced by Kellogg's Safe Fat Reducer, that your loss of weight will result in wrinkles, as is usually the case with so many treatments used for flesh reduction.

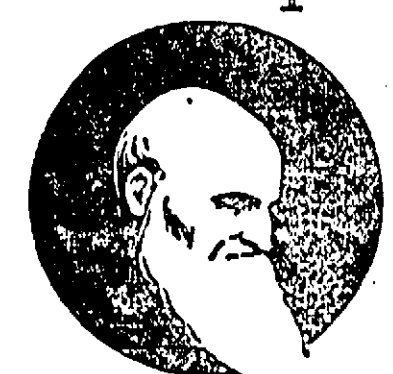

FREE \$1.00 PACKAGE COUPON.

This coupon is good for a \$1.00 package of Kellogg's Safe Fat Reducer, if sent with ten cents in silver or stamps to help cover postage and packing, and as evidence of good faith and if you can honestly say that you have never used this treatment before. Only one package will be sent by mail in plain wrapper, to each person. Also testimonials will be sent from hundreds who have been greatly reduced. JANESVILLE ELECTRIC CO.

TO LIGHT RAILWAY IN PROPER MANNER

University of Wisconsin Issues Bulletin on Train Lighting by Electricity.

Madison, Wis., March 23.—A comparison of the different ways of lighting railway trains by electricity, showing the advantages and defects of each method, has just been published in a bulletin entitled "Investigation of Methods of Railway Train Lighting." In the engineering series of the University of Wisconsin. The author, Edward Wray, received his degree of electrical engineer at the university in 1906.

After tracing the advance of lighting methods in railway cars from the single candle used in English coaches in 1825, through early experiments with oil lamps and adaptation of all the various methods used in lighting streets and houses, Mr. Wray describes the storage battery equipment, steam driven generators in baggage cars, and axle generating equipment in individual cars.

"It is impossible to make a sweeping claim of superiority for any one type of equipment," says the author. "Each is more or less applicable to certain kinds of service. The success of any of the types of lighting equipment lies largely in the hands of the railway operating department. The simplest of all the electrical equipments is undoubtedly the 'straight storage equipment.' Storage batteries, however, must be charged each day, the bulletin points out, requiring expensive charging stations at intervals, and making this mode of lighting impractical for long overland runs. For short runs with heavy traffic and a large number of cars, the storage battery is most economically operated.

Steam-driven generators are also comparatively simple, but require an attendant and demand that the train be a unit, not allowing any car to be introduced which has not that system of wiring. Thus they are most applicable to trunk line trains with a definite run, especially overland trains.

For a large number of cars the only suitable method of lighting by electricity is that in which the power is generated by the axle of the car, says the author. Though the machinery is complicated, and gets out of order easily, it needs constant attention. It is one which makes each car an independent unit, so that it may be used either in block trains or on miscellaneous runs. Satisfactory and economical returns may be secured from this form of electric lighting of trains if the railroad places in charge a competent man who understands the theory of axle equipment, and the practice of storage batteries.

DES PLAINES MAN RUN DOWN BY TRAIN NO. 529
In Charge of Conductor J. J. Dulin And Engineer M. Rowe Early Last Evening.

At Des Plaines last evening a crippled ex-convict, who tried to cross the track ahead of C. & N. W. northbound passenger No. 529 was run down and killed as he attempted to step from the further rail up onto the depot platform. The train, which leaves Chicago at four o'clock and arrives here at 4:45 was in charge of Conductor J. J. Dulin and Engineer M. Rowe. Des Plaines is not a stopping place and the train, out of order, was held up by a blacking out of the engineer saw the unfortunate man start to cross the track but showed the victim's belief that he had plenty of time, until it was too late. The body was badly mutilated and the train went some distance before it could be stopped.

Mr. and Mrs. Chas. Davis had as their guests last Friday, Mrs. Arthur Jones, Mrs. Charles Price and Miss Agnes Drummond of Janesville; Mrs. J. W. Jacobson of Racine, and Mr. and Mrs. T. C. Davis and family of Union.

The Sunday school class of Miss Hazel Ross will enjoy a party at her home on Thursday evening of this week.

Charles Gates of Madison was a visitor here yesterday.

HARRY HOWE DIED SATURDAY IN BELoit

Former Resident of Footville Passed Away at His Home in the Line City.

[SPECIAL TO THE GAZETTE.]
Footville, Wis., March 22.—Harry Howe was born near Mineral Point, Wis., on October 12, 1847, and died in Beloit, Wis., March 20, 1909, aged 61 years, five months and eight days. His father, Elder Henry Howe, was the pioneer preacher of this state, who came to Wisconsin during the territorial days, and settled on a farm. Harry Howe's early days were spent on his father's farm, and under the orthodox training of his father he became a believer in the Master. At an early age he became a disciple of the Lord and enrolled as a member of the congregation at Mineral Point.

His early life was spent amid the simple surroundings of pioneer life. He had a taste for vocal music, and was an earnest student, and considered the meagre school privileges he possessed a fair practical education. He became a school teacher, and taught for many years.

For a number of years he lived on a farm south of the Line River and was a member of the Line River church. On September 23, 1870, he was married to Ellen A. Snyder at Mineral Point and for thirty-one years they traveled together over the highway. Five children were born to this union: one died in infancy; one daughter died about seventeen years ago, and the three surviving ones are, Mrs. L. L. Wilson of Beloit, Jay W. Howe of Monroe, and D. James Howe, pastor of the church of Christ, at Nelson, Kans.

For ten years of his life he, with his family, lived in Minnesota. On returning to Wisconsin he settled at Footville where he lived for a number of years. He has lived in Beloit for two years and for some time has been agent for A. S. Jackson & Co., in whose employ he was at the time of his decease.

He was a close, careful student of the Bible and was perhaps one of the best posted men in the state on the teachings of the Scripture.

The funeral was held from the M. E. church in Footville, Monday, Rev. E. Church of Beloit, officiating. The pallbearers were Wm. and John Honeycutt, John Fisher, John Goldsmith, Patrick Torphy, and Walter Honeycutt. Interment was made in Center cemetery.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whiskey or habit-forming drugs. All its ingredients are printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

"Ay, with the women. What is it, De Nova, a total smash?"

"By gar, out! Zo whole bow cave in; zo deck crush! zo main-hatch; zo after-bulkhead was zo only a'g'w'at hold us up. Sacro, it not hold long."

I grasped the entire situation instantly, realizing the desperate need of haste, of cool, intelligent command.

"Send a man down here to help Dade take up provisions. Jump lively, now; get biscuits and canned goods, my lads, and whatever blankets you can find. Hustle for your lives! Now, De Nova, reach over, and help the women up—easy; that's right."

I held tightly to my lady, clinging to the rail, as I crept across. The black, shapeless figures of several men, whose faces I could not distinguish in the gloom, were clambering about the longboat.

"Everything fitted?"

"Ay, ay, sir."

"What have you got?"

"Oars, mast, canvas, and fresh water."

I reached forward to assure myself that the rudder had been properly shipped, and the plugs securely driven in.

"All right; here come the provisions. Dump them in anywhere, lads. Yes, go back for another load, but for God's sake hurry! De Nova, help me stow the women; gently, but quickly now. Stand by, all of you. Here is the rest of the provender. Now tumble in, lads, and let fall. Ease her off, ease her off, you fools!"

The black snudge dropped down-ward, and leaning far over the slanting rail I could see it strike the water and rise free. The sudden, wrecked hull beneath me rose and fell with a heavy, sickening motion which brought the heart up into my throat.

"Are those all the living men left, Mr. De Nova?" I called down, for the first time realizing how few they were.

"Zey was, all I know."

Another voice spoke, gruff from excitement.

"The fellows for'ard had no chance, sir; all alive are here."

I swung over the side, and shot down the line into the boat.

"Cast off, then. Oars, men! the yacht is going under."

With a single sweep of the hastily piloted blades we were beyond sight of the plunging hull, yet we had not taken half a dozen strokes before we were tossed roughly by a sudden convulsion of the sea.

"My God, she's gone!" shouted a voice forward.

All I could distinguish within the boat were the two women next me at the stern—Celeste, with her face buried in her arms, and my lady staring into the icy fog.

CHAPTER XXI.

In Which Love Speaks.

No one uttered a sound after that first wild cry. We sat there stunned into silence by the horror of the situation, every eye staring blindly into the mist, the long-boat tossing like a chip on the swell caused by the engulfing of the yacht. The crippled Sea Queen had evidently gone down like a shot. Twice I endeavored to speak, but something choked me, and my voice failed. I reached down into my pocket, held close to my eyes the small compass I always carried, and swung the boat's head northward. Even this slight effort at action gave me back some measure of self-control.

"You had better stop the mast, Mr. De Nova, and get out what canvas you can spread. There is not much wind, but we'll make the best of what little there is."

They went at the task as though glad to have work given them, but I could see nothing but the dim outlines of their forms.

MAY PROVE FATAL.

When Will Janesville People Learn the importance of it?

Backache is only a simple thing at first;

But when you know 'tis from the kidneys;

That serious kidney troubles follow;

That diabetes, Bright's disease may be the fatal end.

You will gladly profit by the following experience.

"This the statement of a Janesville citizen.

Mrs. M. Smith, living at 329 Center St., Janesville, Wis., says: "I suffered very severely at times during the past year from attacks of rheumatism and backache. My sides also ached at times and I noticed that the kidney secretions acted too freely. A neighbor told me to try Doan's Kidney Pills, and I sent to the People's Drug Co. for a box. My back began to feel better in a short time and the kidney secretions became clear and were voided less frequently. I am feeling so much encouraged, I am going to continue the use of this remedy until cured. I give my name in a public endorsement in order that others suffering similarly may be benefited by using Doan's Kidney Pills."

I bent down toward Lady Darlington; she glanced around and directly into my eyes.

"Are you warm enough?"

"Oh, yes; but—but I hardly know how I am. This has come so suddenly, I—I am not frightened, but dazed, horrified. Were all the others on board drowned?"

"They must have been. I will question the men in a moment. Only I beg of you do not permit your courage to give way."

She rested her hand upon my knee, "You need not fear for me," she said firmly. "I will not fall you."

The mainmast belled out, "catching whatever breeze there was, the boom swinging free and the long-boat leaping well over, as it leaped forward into the fog. The swift motion brought new heart to all of us.

"Pass back the provisions, lads, and we'll stow them away here in the stern-lockers."

This task required only a few moments, and when it was completed I was able to discern the mist, seated next to Celeste.

"Now tell me just what occurred, Mr. De Nova," I said. "What was it we bumped into, an iceberg?"

"Zat was it, monsieur. You saw how zo fog lay. By gar, I not see zo fo'c'le from zo bridge for more as four hour. We run at half-speed 'en you went below. Sacro, w'at else was dare? I know you much tired, an' so I stand zo watch for six hour. By gar, my eyes burn tryin' to see something. Zen I send down for you to be call. Pretty soon I leave Larsen on zo bridge, an' start aft to see w'y you not come more quick. I got most to zo companion, when bang! we hit zo iceberg! Zat all I know for zo nex' minute, only zure be hell for'ard, an' zo ship up on end."

"Is that all you can tell? Is there any one else here able to explain?"

"Well, sir," said a deep rumbling voice forward, "I was just aft of the main-hatch when the rumpus happened, a-hangin' on to a lifeline. I couldn't see much, but I figure it out like this. We hit a big berg bows on; a lot o' ice caved off on us, an' smashed in the for'ard deck like it was paper, crushin' down everything as far aft as the engine-room. Both boilers blow up, an' then nothin' held the stern in the air but the after bulk-head. When that finally gave way the ol' hooker dropped to Davy Jones. There wasn't a man ahead of the main-hatch that had a chance even to run for it."

I caught my breath, feeling a shiver shake me.

"I am unable to make out who are on board," I said at last. "Name yourselves, beginning at the bow."

"Jem Cole, sir." It was the voice of the negro.

"Next. Speak up, men!"

"Johnson."

"Kelly."

"McKnight."

"Dado."

"Sancler."

There was a pause, the last voice sounding just about the mast-but.

"Is that all?"

"That's all, sir."

"With De Nova, myself, and the two women it makes the count ten. Well, we shan't be crowded for room. This is going to be a hard cruise, lads, but we'll make a stiff fight for it. We're sailors, with a staunch boat under us, and a chance to win out."

There was a faint cheer, rumbling, as if it had caught in their throats, and the negro asked:

"How much of a run is it, boss?"

"I am unable to tell you, Cole," I answered, endeavoring to make my voice sound hopeful, "because I have not had any observation for three days. There is no use lying to you fellows. There is a mighty long stretch between us and any land worth trying after. We are out of the track of ships, and our only hope is to keep the long-boat right side up, and get out of her all the speed possible. Two of you stand by to watch the running gear; the others had better lie down and get some sleep while the wind is light. Turn in with them, De Nova; you will have to relieve me at the tiller later."

The breeze perceptibly freshened, but not sufficiently to require any reefing of canvas, and the fog began drifting away like a great white cloud, leaving revealed the vista of cold gray sea stretching about us. Lord, but it did look barren and desolate, that ceaselessly heaving expanse of water, amid which we were but the merest speck; scarcely more important than those floating cakes of ice, tossed by the waves through which we sought passage.

At six o'clock we took careful stock of our supply of provisions, and served out a small ration all around, after ward arranging the blankets and extra clothing. The wind felt cooler, the sea coming up a bit, and Dado and Kelly fixed up a piece of spare canvas at the stern to protect the steering gear from the dash of icy spray. De Nova took the tiller, and seeing no signs of a bad night I lay down undisturbed, though not until I had compelled Lady Darlington to seek rest also. Whether she found it or not I can not say, but I was asleep instantly, and knew nothing until Johnson called me at midnight.

There was no great change in conditions as I stumbled sleepily aft to take the tiller. The boat was sailing free, but with a reef in the mainmast, owing to a marked stiffening of the wind. The intense loneliness of the scene cast an even stronger spell over me now—those awful wastes of solitude above and below; the far-off, steely glitter of stars; the nearly white crested waves; the little, insignificant dot of a boat in which we tossed. I thought upon those leagues upon leagues of barrenness stretching away to the north, east, west, south, the vast fields of ice, the extent of storm-lashed seas, the seeming hopelessness of our efforts at escape, and

choked in my throat, my lips pressed tight, my eyes staring blindly out into the smother.

Suddenly the blanket at my feet stirred, and Lady Darlington sat up, her back against the gunwale and face upturned to mine. The cold gleam of the moon revealed her features, clear cut as a cameo, framed by the darkness of her hood. I could distinguish the delicate tracery of her lashes, and, beneath that light, the gray of her eyes appeared black.

"I have been studying your face, Mr. Stephens," she said quietly, "and have read there the helplessness of our situation."

I rallied instantly, endeavoring to speak lightly.

"You translate wrongly. That was only the depression of the scene yonder; the awful loneliness of sea and sky affected my spirits. You should not draw hasty conclusions."

"Nor have I. Even such a sea and sky never gave you that look of despair, I know you too well to believe that. You consider our situation desperate."

I looked at her closely, but it was not fear I saw in the uplifted face.

"It is certainly serious enough," I admitted, believing it useless to attempt any deceit, "but not hopeless. We have a staunch boat under us, sufficient food for all our probable needs, and a favorable wind. While there is life there is hope."

She made a little eloquent gesture of the hands.

"Please do not say that. Those words are always the last effort to bolster up courage. Keep them for the men, but trust me with the exact truth."

"Ask and I will answer."

"What chance have we of rescue?"

I turned my eyes away before venturing to reply, yet I dared not utter an untruth.

"Two: the being picked up by some passing vessel, or the attaining of inhabitable land."

"Are there any vessels in this sea at this season?"

"It is hardly probable there are, unless it should be some whaler blown from her course around the Horn."

"Then our only practical hope lies in reaching land by our own efforts?"

She leaned forward, her hand touching mine as it grasped the tiller, her earnest eyes compelling me to look at her.

"Yes."

"How—how far away is this land?"

I hesitated, actually afraid myself to speak the answer, but her hand-clasp merely tightened.

"Please tell me, I—I wish to know the very worst. Such knowledge will be easier to bear than this awful doubt."

"But I hardly know myself," I confessed desperately. "I have had no observation for several days, and can only guess the rate of progress of the Sea Queen, or our drift during the storm. I will be perfectly honest with you, though, and give you my best judgment. I believe we must be between four and five hundred miles to the east and north of Dougherty Island, and not yet beyond the limit of drift ice. There would be no use in our attempting to turn back for that point of land, as it is nothing but a rock, and we could never find it by the mere guidance of a compass. Our only chance is to bear away to the north-east toward land and the track of ships."

"How far? What land?"

"The western coast of South America; at least 1,500 miles."

I felt her shudder, and scarcely realizing that I did so, or the signifi-

cance of the action, impelled by an impulse beyond all control, I drew her hand within both my arms as though in pledge of protection.

"It can be done," I insisted. "Such boat voyages have been accomplished."

SCOTT & BOWNE, 409 Pearl Street, New York

(Signed) S. B. BOWNE, J. C. BOWNE, JOHN A. BOWNE, GEORGE C. BOWNE, Street Assessment Committee.

OFFICE OF STREET ASSESSMENT COMMITTEE, Janesville, Wis., March 23, 1900.

To WHOM IT MAY CONCERN: The Common Council of the City of Janesville, having determined that during the ensuing year, several streets be constructed and laid for special assessment upon the following named streets to-wit:

In Sewerage District No. 10.

On Fourth Ave. from Third St. to the easterly boundary line of said district 132 feet westerly from the west line of Central St.

In Sewerage District No. 11.

On Fifth Ave. from Glen St. to Walker St.; on Glen St. from 17th Ave. to Prairie Ave.; on Prairie Ave. from Third St. to 18th St.; on 18th St. from Prairie Ave. to Yuba St.; on Yuba St. from 18th St. to Walker St.

In Sewerage District No. 14.

On Division St. from Oakland Ave. to the northerly boundary line of said district, 108 feet southerly from the southerly line of South Third St.

Now therefore, notice is hereby given that the street assessment committee, acting as a board of public works, will meet on the first day of April, at 2 o'clock in the afternoon at their office in the city hall in said city for the purpose of making such assessment, and that all persons interested may appear and be heard upon the matter of the assessment and the apportionment of the expense of constructing and laying the same among the lots, parts of lots and parcels of land fronting or abutting on each side of said streets in each of said sewerage districts. Notice is further given that at least one day prior to such hearing the street assessment committee will make and file in the city clerk's office a table containing the estimated value of the lots and parcels of land in each of said sewerage districts, which table shall be open to public inspection.
